

Participation Grading Policy

We strive to utilize as much time as possible in the shop doing **hands on, minds on** activities. Because we are in shop a large percentage of the time, your grade reflects your participation and shop protocol.

You must understand that it is difficult for me to monitor each student with 100% efficiency. Therefore, this daily grade is somewhat subjective. At the end of class, I will enter my estimation of your daily grade and you can provide your input. Remember this is my/our perception of your participation, general behavior, observation of safety and shop rules, and overall cooperation. We work as a team and we all must understand that shop etiquette and participation are directly related to safety, productivity, and worthwhile learning experiences.

You are expected to stay busy during class, make a clear effort to contribute to the class abiding by all safety rules and recommended shop etiquette. You should be engaged in an activity and be on task during class. Work as a team striving for safe and productive class.

Please review this rubric and the shop safety protocol.
Basically, each of the ten subcategories is worth 0.40 point.

Shop Participation Grading Rubric

Maximum = 4 points each day.

Category	5	4	3	2	1
Participation Prepared Organization On Task Cleans-Up On Time	On time ready and works the entire period.	Student is off task between 5-10 min during the block.	Student is off task for 11-20 min during the block.	Student is off task between 20-25 min during the block.	Student is off task for 25 or more min during the block.
Etiquette Safety Rules Team Work Cooperation Behavior Courtesy	The student does not breach any listed criteria.	The student breaches 1 of the listed criteria.	The student breaches 2 of the listed criteria.	The student breaches 3 of the listed criteria.	The student breaches 4 of the listed criteria.
